BUREAU AIDING IN DEVELOPMENT

EXECUTIVES ENJOY BIG DAY IN GRAYLING.

Fine weather aided in making pleasant the visit of the delegates to the convention of the Executive committee of the North Eastern Michigan Development bureau and East Michigan Tourist association held here last Saturday. Many arrived Friday afternoon or evening, others coming Saturday morning.

A business session of the convention was the first order of business and was held in the Board of Trade rooms at 10:00 a. m. Saturday. The finances and future plans of the joint organizations took up most of the session. It was ever apparent to the members that the tourists coming in to this region were going to demand the best efforts on the part of the people here to care for them. This is fast becoming the largest and best asset of the country and deserves the greatest encouragement and fostering. The efforts of these organizations to bring settlers and industries into this region are meeting with excellent success and now it is up to the people to be on their toes and to make good on the promises of these agencies, and to see that those who come here are well cared for and to aid them in securing what they desire.

After the close of the business session the visitors were taken to the State Experimental farm where Agricultural Agent R. D. Bailey explained, in a comprehensive manner, what was being done there, pointing out the success that is being achieved. Selecting, as the State did, the poorest soil to be found in Crawford county, they are proving to everyone's satisfaction that even on such poor soil, certain crops, such as alfalfa, sweet clover, vetch, rye and many other hay grasses can be grown in abundance. This exhibit was a revelation to the visitors, who were enthusiastic over the success of the experiments. It was the desire of the local committees to show the visitors some of the good farming sections of the county but the time was too limited for that.

After having luncheon at Shoppenagon Inn, the delegates, together with their wives and escorting committee, took a trip to a couple of AuSable river club houses. The first stop was at the beautiful log cabin of Edna A. Murray of Detroit, on the main stream. This is recognized to be the finest place on the river. There is no prettier stretch of river anywhere and certainly there is no more beautiful summer home, highly artistic in natural rustic, and with its furnishings in special designs, built from white birch. To call this place a log cabin would give anyone not familiar with it a wrong idea of its value, as it is claimed to have cost its owner well over \$25,000.

Wa-Wa-Sau, located a few miles further down the stream, is a close second to the Murray cottage, and is also of log construction. This place too is beautiful and is the property of Mr. and Mrs. J. B. Bell, Mr. and Mrs. Rathbun Fuller and Mrs. J. K. Seagr, all of Toledo.

The visitors also took in the attractions at the fish hatchery, where they saw hundreds of trout of all varieties and sizes. Of course it wouldn't do to let the visitors miss the Hanson State Military reservation. A hurried-up trip was taken to that place. This is the permanent home of the Michigan National guard and the property of the people of the State of Michigan. The visitors were very much impressed with the magnificence and beauty of the place, and with the wonderfully fine camp and parade grounds, the build-

ings, and with beautiful Lake Margrethe in the midst of it all.

While the time afforded but little opportunity to see the attractions about the city, only the high spots being touched, everybody seemed delighted and very well impressed.

The Banquet.

At six o'clock a banquet was given complimentary by the Grayling Board of Trade, at Shoppenagon Inn. The dinner, of course, was excellent, and while the diners were enjoying the good things to eat, Schram's orchestra furnished music and won much deserved applause.

Melvin A. Bates, president of the Board of Trade, welcomed the visitors and gave some statistics about Grayling, and also told many things of interest about the city. He also extended the warmest welcome to the guests of the evening. He closed his remarks by introducing Marius Hanson, the toastmaster of the evening. Mr. Hanson is the treasurer of the Development bureau, which office he has held for many years, and will no doubt continue to hold just as long as he is willing to assume the responsibility. That his service is deeply appreciated is manifested by the many complimentary remarks made by the speakers during the evening.

Robert Rayburn of Alpena, president of the Development bureau, responded to the address of welcome, and on behalf of the visitors, thanked the citizens for the fine time they had given them that day.

T. F. Marston, secretary of the Development bureau, told of the objects of the North Eastern Michigan Development bureau.

John Yuill of Vanderbilt, ex-president of the Development bureau, spoke on the "Agricultural development of North Eastern Michigan."

C. A. Pinkerton of East Tawas, an executive with the D. M. railroad, gave a talk on "What the railroads are doing in North Eastern Michigan."

H. N. Butler of East Tawas, 2nd vice president of the bureau, told of "What the resorters and tourists mean to North Eastern Michigan." The whole program was filled with interest and valuable information. It was indeed a fine gathering and one that will long be remembered by the home people and those who were in attendance at the convention. Grayling has much to be proud of and such conventions give the people of other parts of the state a chance to become better acquainted with our people and also to learn what there is in our city and surrounding communities.

The following gentlemen were in attendance at the convention: John MacGregor, Alpena county. Robert Rayburn, Alpena. F. A. Hewitt, Bay City. Marius Hanson, Grayling. Robert Stewart, Gladwin. H. N. Butler, East Tawas. Leslie D. Madill, Midland. H. S. Karcher, Rose City. John Yuill, Vanderbilt. J. R. Snoddy, Onaway. C. A. Pinkerton, East Tawas. T. F. Marston, Bay City.

PRIZES FOR PHOTOGRAPHS.

The East Michigan Tourist Association is advertising to give \$150 in cash prizes to the one that sends the best photographs at the end of the season of the things encountered and the things seen in a trip through northern Michigan this summer. This ought to bring out a great lot of very fine pictures that can be used in presenting northern Michigan's resort attractions next year. Full information about this plan can be had by writing the East Michigan Tourist Association at Bay City. It may be well worth trying for some of this money, as undoubtedly nothing but amateur pictures will be shown and these will depict every phase of the camping and outing trips taken into the north this summer.

W. W. POTTER FOR GOVERNOR

DECLARES HIMSELF IN RACE AND PLAINLY TELLS HOW HE STANDS.

Is One of Few Men Big Enough for the Job.

William W. Potter, chairman of the Michigan Public Utilities Commission, today announced his candidacy for the Republican nomination for Governor.

Potter's formal announcement was brief and to the point. It said:

"I am a candidate for the Republican nomination for Governor. I am for the enforcement of all laws; the establishment of a rural credit system; lower freight rates on farm products; amendment of the Transportation Act; economy in all departments of state government; extending and maintaining improved highways by money to be raised by a tax on gasoline; discontinuing state bond issues, paying as we go, without mortgaging the future; protection of our destructible natural resources; bringing electrical energy to the farm; applying business methods in state business, getting a dollar's worth for each dollar expended, and building up instead of tearing down our state institutions."

Potter, it is said here, satisfies the demand of the progressives of the Republican party for a man who is progressive without being classed among the radicals. Although a regular Republican, Mr. Potter has distinctly progressive tendencies and has won the confidences of both the progressive and conservative wings of the party.

For the past 35 years Potter has been prominent in state politics and has taken an active part in every Republican campaign during that time.

During all of his public career Mr. Potter has been an unfailing champion of labor. His interest in the workers is shown by his attitude on the railroad question, and by his decisions in wage disputes in which he has acted as arbitrator. Mr. Potter lent his cordial support to the immigration legislation sponsored by organized labor and consistently supported labor's candidates for various offices.

He was the first official of any state to oppose the Transportation Act of 1920, and has been active in the campaign against it since the bill was presented in congress. Mr. Potter acted as an arbitrator in the dispute between the Detroit United Railway and the platform men. Mr. Potter wrote an opinion favorable to the platform men.

During the congressional campaign two years ago, Potter obtained pledges from all the republican candidates to support measures modifying the Transportation Act.

Mr. Potter's ability as an administrator was shown by his work as a dictator during the coal shortage of 1922-1923, when he handled the perilous situation to the satisfaction of everyone.

The present chairman of the Utilities Commission is not a political candidate of the usual standard. Although he has held numerous county and state offices, it was not due to the fact that he sought the office. On each occasion he was urged to enter the race.

Mr. Potter is generally recognized as the hardest worker among the employees of the state of Michigan. He can be found without fail at his desk at eight o'clock in the morning and frequently he remains in his office long after the closing hour at night.

Potter is a past President of the Michigan State Bar Association, and is author of a legal text book "Potter on Evidence."

He is recognized throughout the state as one of our ablest lawyers and most astute politicians. He has filled many positions and has filled them with marked ability. He is big physically and mentally and has a wonderful capacity for work. He is one of the big men of the state and is fully qualified in every way for the position as governor, which he would fill without fear or favor. At the same time he is one of the most congenial of men and he is never too busy to do a favor for a friend.

"Michigan would be honored with 'Bill' Potter in the governor's chair and his administration of state affairs would be marked by business ability in the largest and greatest sense, for the benefit of all of the people of the state."

THE 1924 ASSOCIATED TOURS GUIDE FOR MOTORISTS.

The vacation trip by motor car to country, mountains and seashore, is now such an established practice, that for car owners each year it is only a matter of deciding just where to go and how to get there, through all parts of the country.

As an aid in helping to settle this question for many motorists, The Automobile Club of America has just published the eleventh edition of its annual road book the 1924 Associated Tours guide. The main highways shown in the guide are good hard surfaced roads and lead the motor vacationist through country of scenic charm and interest.

The guide covers by means of road maps and itineraries, with mileages, all the country east of Chicago from Maine to Florida; also including Eastern Canada. There is also a Transcontinental Tour from coast to coast that serves as a guide to eastern motorists coming west and western motorists coming east. The New England numeral road marking system is shown on all maps of that section.

There are also given in the guide's 96 pages, motor maps of the principal cities showing exactly how to enter and leave them; Canadian Motorist regulations; and a concise table of the motor laws of all States.

For the convenience of car owners the Club has had the guide distributed through local motor clubs, book stores, news dealers, and druggists; motorists may also obtain it by sending the cost fifty cents to The Automobile Club of America, 247 West 54th street, New York, N. Y.

FARMERS' DAY TO BE LADIES' DAY TOO

EXPECT THE FAMILY TO COME WITH DAD FOR M. A. C. CONFERENCE AUG. 1.

In the expectation that "the family" will come along with Dad for the annual Farmers' day at M. A. C. on August 1, plans are being made to provide special headquarters and entertainment for women visitors. As a result, Farmers' day will be Ladies' day too at the college this year.

Making their headquarters at the M. A. C. home economics building, the ladies will find much of interest in their own particular field, and in addition they will join the men in inspection trips over the college grounds in the morning. The big afternoon meeting under the campus trees is, of course, planned for all the Farm Day visitors.

The livestock parade, or "style review," the band concert, the talks by national agricultural authorities, and the specially prepared exhibits are expected to be of as much interest to the women as to the men.

During the afternoon, tea will be served in the parlors of the home economics building, the faculty of the college home economics department serving as hostesses for the social gathering.

SUNSHINE MISSION.

Sunday school and services for Sunday, July 27, as usual at the Harder home. There will be no meeting at night as Brother Kirby intends to be at Frederic. Street meeting Saturday, July 26. Last Saturday and Sunday nights we had splendid open air meetings. Crowds were eagerly listening to the truths of the Gospel of Jesus Christ, our Lord. We believe much good was done for hungry souls in Grayling. We had a blessed street meeting in Frederic Monday night, and the Lord willing, meetings will continue this week. The world is hungry for the life which comes from God. We are glad to tell about the life-giving flood. Everybody invited. Come and enjoy God's salvation.

— Mrs. Harder.

PERSIA SENDS MURDER REGRETS

PROMISES TO DO ALL POSSIBLE TO PUNISH SLAYER OF MAJOR IMBRIE.

TAKING PICTURES, MOB ATTACKS

Infuriated Mob Turns On Police and Soldiers When They Attempt to Assist Victims.

Washington — Instructions have been received by the Persian legation from its government to express to the Washington Government its deep regret over the killing of Vice-Consul Robert Imbrie by a native mob at Teheran and to state the Persian government will do "all in its power to fulfill its duties in this case."

The Persian government, it was added, is seeking "the guilty persons in the case and will take all possible steps to secure their punishment."

At the same time, the cable dispatch to the legation was said to indicate the attack on Imbrie and his companion, Melin Seymour, was provoked by "their own carelessness in going to a sacred place and persisting in taking pictures." The police and soldiers who went to their assistance, it was added, were attacked by the mob, three policemen being mortally wounded and a soldier dying a few hours later of injuries received.

The instructions were received at the legation while American Government officials were awaiting further advice from Joseph S. Kornfeld, its minister at Teheran, concerning the case. A thorough investigation was being made it was stated.

The National Geographic Society had commissioned Maj. Imbrie to take pictures in Persia and apparently he was attacked. There is no law in Persia against the taking of photographs, except the photographs of women.

Maj. Imbrie was a Yale graduate and drove an ambulance during the war, after representing the State Department in Russia. He also was noted as a hunter of big game and had won distinction for exploits in the Congo.

Seymour was reported to have been a prisoner of the American consulate. Little could be learned of him.

SLAYERS POSE AS MONSTERS

Defense Lays Diabolical Schemes to Leopold and Loeb.

Chicago — Stories that Nathan Leopold, Jr., and Richard Loeb, confessed kidnapers-slayers of Robert Franks, first planned to make their father, or Loeb's 10-year-old brother, the victim, have been characterized by the prosecution as propaganda designed to further the insanity theory of the defense.

The defense is endeavoring to make the youths appear as diabolical as possible in order to prove that they are crazy, according to Dr. William O. Krohn, alienist, who will testify for the state. The prosecution contends that the boys were normal, healthy and well educated and expects to introduce evidence in support of that contention at their trials scheduled to start August 4.

A plan to radiocast the proceedings of the trial during the progress had been advanced by a Chicago news paper, which has submitted a referendum on the suggestion to its readers.

GRAND RAPIDS CAR BARN'S BURN

Fireman Killed, Others Injured By Falling Bricks As Wall Falls.

Grand Rapids — One fireman was killed and several hurt in a fire which destroyed the \$500,000 Hall street car barn here.

The fire resulted in the complete destruction of street car service in the southern section of the city.

Percy Acker, a member of Engine Co. No. 7, was instantly killed when he was caught under falling bricks when one of the walls of the car barn fell. Verno Lampire, a member of the same company, was seriously injured at the same time.

A few minutes before the entire eastern wall of the big building collapsed and several firemen were reported to have been injured there.

About 50 street cars were in the car barns at the time of the fire. They were all destroyed. These included seven new cars recently purchased by the city.

The fire is believed to have originated in one of the street cars which had been stored in the car barns for the night.

U. S. to Modernize Spain's Phones. Washington — American interests will take over and modernize the telephone system of Spain, the department of commerce has announced. A corporation financed by Spanish capital, but with American technical staff and material will install up-to-date telephone equipment in Madrid and Barcelona. The present system in Spain is antiquated and the service is so poor that a great many offices and practically all private homes do not have telephones installed.

LOCALS WIN ONE AND LOSE ONE

TWO FAST GAMES WITH PORT HURON GIANTS.

The Sunday Game.

Grayling counted in three frames, beginning the first with three scores. To this they added two in the 6th and two in the 8th. Johnson held the visitors to four hits and one score which came in the 8th after a single by Pryor followed by a single by Craig after Barnes struck out. Pryor scored. The game ended with Grayling 7, Giants 1.

How It Was Done.

1st Inning. Giants—Barnes struck out. Craig walked. Haley singled. Bennon fouled out to W. Laurent. Washington fanned. One hit. No runs. No errors.

Grayling—Smith was thrown out by shortstop. Milnes hit a fly to short. E. Johnson singled to right field. Dago Laurent tripped to right center scoring Johnson. Babe Laurent tripped to same field scoring Dago, and scored on an overthrow to catch him at 3rd. Three hits. Three runs. One error.

Second Inning.

Giants—G. Walker was thrown out at first by shortstop. D. Walker by the pitcher and Gill by 2nd baseman. No hits. No runs. No errors.

Grayling—Doroh was tossed out by pitcher. Nelson and Reynolds were thrown out at 1st by second baseman. No hits. No runs. No errors.

Third Inning.

Giants—Pryor was thrown out by pitcher. Barnes singled to right field. Craig forced Barnes at 2nd. Haley was hit by pitcher, advancing Craig. Bennon forced Haley at 2nd. One hit. No runs. No errors.

Grayling—Smith grounded out to short. Reynolds fanned. The second baseman fumbled Johnson's grounder. Dago flied to center. No hits. No runs. One error.

Fourth Inning.

Giants—Washington struck out. G. Walker lined out to short. D. Walker fanned. No hits. No runs. No errors.

Grayling—Babe Laurent walked. C. Johnson fanned. Doroh walked. Nelson flied to right field and Babe was doubled off 2nd. No hits. No runs. No errors.

Fifth Inning.

Giants—Gill and Pryor each hit flies to right field and Barnes fanned. No hits. No runs. No errors.

Grayling—Reynolds was retired, short to 1st. Smith got on when first baseman muffed the throw from short, and also took second. Milnes singled. E. Johnson hit the ball in the infield and Smith was caught between third and home. Milnes who was near third, was chased back to second, which forced Johnson back to 1st, where the latter was tagged. One hit. No runs. One error.

Sixth Inning.

Giants—Nelson dropped Craig's low liner to center field. Haley hit to Smith, who tagged Craig on the line and threw Haley out at 1st. Bennon fouled to catcher. No hits. No runs. One error.

Grayling—Dago singled. Babe Laurent doubled scoring Dago. C. Johnson was thrown out by 2nd baseman. Doroh struck out. Nelson singled scoring Babe. Reynolds struck out. Three hits. Two runs. No errors.

Seventh Inning.

Giants—Washington and G. Walker were thrown out by 2nd baseman. Smith making wonderful stop of Walker's fast grounder. D. Walker

FOUR AMENDMENTS ON BALLOTS

PROHIBITION, INCOME TAX, REAPPORTIONMENT AND ANTI-PAROCIAL SCHOOL QUESTIONS COME UP FOR SETTLEMENT.

With the time limit for filing petitions up, only four proposed constitutional amendments instead of five as formerly reported, are assured places on the ballot in the general election next November.

They are: The proposal backed by the Association against the Prohibition Amendment, to modify the Michigan "bone dry" provision and make the state constitution complying with whatever the federal law may be. The state income tax sponsored by the state grange and other farm organizations.

Rep. John B. Corliss' plan for the re-apportionment of the legislative districts through the creation of an apportionment commission.

The anti-parochial school amendment urged by the Michigan public school defense league.

fanned. No hits. No runs. No errors. Grayling—Smith lined out to pitcher. Milnes flied to right field. E. Johnson fanned. No hits. No runs. No errors.

Eighth Inning.

Giants—Smith caught Gill's pop-up. Pryor singled to right field. Barnes fanned while Pryor piffled second. Craig singled scoring Pryor. Smith retired Haley. Two hits. One run. No errors.

Grayling—Dago singled. Babe flied to left field. C. Johnson walked. Doroh singled scoring Dago and Johnson and was out at second. Nelson fanned. Two hits. Two runs. No errors.

Ninth Inning.

Giants—Bennon was retired at first by 3rd baseman. Washington and G. Walker fanned. No hits. No runs. No errors.

Batteries: For Grayling, Johnson and Johnson. For Giants, Gill and G. Walker.

Umpire—Edgar Dyer.

Monday Game.

Monday's game as not so rosy. A number of new sensations were sprung, which were not of the right type. Lots of hits, bad fumbles and wild throws contributed to the score of the Giants. The game ended with a score of 9 to 6 in favor of the Giants. 12 hits were made off Laurent in nine innings and four off Pryor in four innings and five off of Walker in five innings.

Grayling made enough hits to win almost any ball game, and six runs also should be enough, when such teams as Grayling and the Giants are playing. Grayling lost this game and shouldn't. However it was a good game to look at and a big crowd was out. During the game Schram's orchestra furnished music. A piano was placed in the grand stand and certainly the music was fine.

1 2 3 4 5 6 7 8 9 r h e
Grayling 0 0 1 2 1 0 0 2 0 6 9 5
Giants 2 0 0 3 1 1 1 0 1 9 12 3

Batteries: For Grayling, Laurent and Johnson. For Giants, Pryor, D. Walker and G. Walker, Williams. Umpire—Edgar Dyer.

Hardest Substance.

The hardest substance known is probably the diamond, and the next carbonadium. The softest metal is mercury and the next potassium. Of the more common metals lead is probably the softest with gold next. Gold is probably the most malleable metal and silver next.

Reynolds Asphalt Shingles End All Roofing Worries

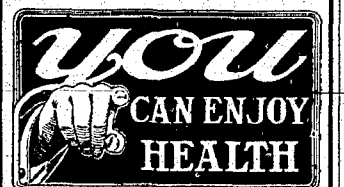

being rainproof, fire-resisting, windproof and non-curlable.

There is but one "original" Asphalt Shingle —REYNOLDS—the shingle that "Grows More Beautiful With Age."

Supplied in three non-fading colors—red, green and gray. Make sure you're getting the genuine Reynolds Shingle Package and Roll Roofing.

Red Crown

The High-Grade Gasoline

Means Your Money's Worth of Mileage

TRUE gasoline economy lies in mileage—providing other good fuel qualities are not sacrificed.

Comparative road tests by users and by manufacturers of automobiles, prove that Red Crown yields more and better mileage than any other gasoline of its kind. In addition to extra mileage, Red Crown gives flexibility and efficient performance at all times.

To quote from a letter recently received—"Red Crown, used by us for the last four years, has given us smooth acceleration, more mileage and power, and does not thin out the oil in the crank case because it burns up clean. Our carburetors do not have to be adjusted because Red Crown is always uniform in quality, everywhere."

Red Crown effects other economies. It keeps your engine running sweet and clean. It reduces overhauling and cleaning bills, and best of all it provides that dependability of performance which is so agreeable to all motorists.

Use Red Crown this summer. It will give you more for your money and more days of service from your car.

THURSDAY, JULY 24, 1924

WE REFUSE.

Occasionally a subscriber calls and asks us to write a heated editorial on something that he doesn't like. We notice however, that such people usually show what courage they have by concluding, "But don't mention my name."

Mr. Ralph Armstrong and son L. R. and two other young men of Hudson, Mich., were in the city Wednesday in the interest of the campaign of Edward Frensdorf of that city for governor. It doesn't look as though Mr. Frensdorf is going to have any competition in the primary election and will be nominated on the Democrat ticket. The Editor of the Avalanche is privileged to be closely acquainted with Mr. Frensdorf and holds him in the highest esteem as a man and a statesman and is very proud of his friendship. However, as an economic measure for the citizens, and especially the taxpayers, we are still of the opinion that there is not a man in Michigan better fitted to succeed our present governor than William W. Potter. The latter is closely in touch with administration affairs of the State; he is one of the brainiest men to be found anywhere, and all his public actions have been for the good of the people and not to play politics. We have no political obligations and seek no favors so cannot at this time afford to sacrifice Mr. Potter and the public good he can do, for even so good a friend as Mr. Frensdorf.

WHAT IS "REFORM"?

What would be the platform of a real American "reform" party? In these days when extremists and experimentalists are attacking a political system that has stood the test of a century and a half, what would such a platform contain?

Would it declare for public ownership of all waterpower plants?

Would it advocate public ownership of railroads?

Would it recommend a constitutional amendment giving congress power to set aside judicial decisions interpreting the constitution as applied to laws of congress?

Would it advocate direct election of federal judges for terms limited to ten years?

Would it make the federal government a loan agency "without discrimination to business men, farmers and home builders?"

Would it abolish all injunctions in labor disputes?

Would it declare for direct nomination and election of president and for federal initiative and referendum, especially on a declaration of war?

Would it withdraw government aid and protection from Americans abroad engaged in carrying on American foreign trade?

These are some of the most advanced ideas on reform advocated by our radical political leaders. How many Americans would be willing to assume responsibility of putting all these changes into full force and effect?

RE-REGISTRATION IS UNNECESSARY.

Contrary to the belief held by a considerable number of persons re-registration in all of the townships of the county is unnecessary this year. The law covering the re-registration is effective only in cities or townships having a population of 10,000 or over or where by special resolution the township board or legislative body calls for a re-registration.

Following are the two townships of Act 126, P. A. 1917, covering the matter of re-registration as applicable here:

"Sec. 2. In any township or city where presidential electors are to be chosen, there shall be a re-registration of the qualified electors of each township and city of this state having a population of 10,000 or more, as shown by the last preceding federal census.

Sec. 2. In any township or city having a population of less than 10,000 as shown by the last preceding census, the township board or legislative body may, in its discretion, by resolution passed not later than the 15th of February of any year in which presidential electors are chosen—by a majority vote of the members-elect of such township board or legislative body declare that it is desirable to have a re-registration of the qualified voters of such township or city, then in such case, there shall be in said year a re-registration of the qualified electors of such township or city."

TAKE IT OUT OF POLITICS.

One of the largest manufacturers in this country, who is personally interested in the welfare of his workers deplores the tendency to make the tariff question a political issue.

If his name is mentioned in connection with his views he says he is immediately accused of being prejudiced when the plain facts are that a reasonable tariff which permits American industries to meet world competition and at the same time maintain American wage scales and living conditions, is primarily in the interest of the workman instead of the manufacturer.

He points to England with its unemployment problem, which results largely from a tariff on food and merchandise which the poorer people of England use but do not produce, rather than on the manufactured articles of England which are put out of business by nations producing more cheaply than killing employment.

What good does the cheap foreign article do the worker if he is out of a job?

AMERICAN JAZZ HAS CAUGHT ON IN CHINA

Means Important Trade Development With U. S.

Washington.—Chinese who have been educated in the United States have introduced American jazz music in the Far East, where it is becoming increasingly popular. This is shown in official dispatches from Consul Leroy Webber at Hongkong and Trade Commissioner G. C. Howard at Shanghai.

Because Chinese music differs so radically from that of western people, the developing craze for jazz band music and symphony orchestras means an important trade development, with the United States second only to Germany in supplying the demand for instruments.

Reports from Mr. Howard show that Shanghai has a symphony orchestra of about fifty pieces, playing Sunday afternoons during winter months in the town hall and at parks several evenings a week during the summer. A brass band of twenty to twenty-five pieces also plays in a park during the summer.

There are some dozen dance orchestras of five to ten pieces using the instruments common in America.

In the case of the symphony, instruments are owned by the musicians. It is a volunteer organization made up of various nationalities. Only a small charge is made for admission to winter recitals, while summer recitals are free.

In dance orchestras the instruments, with the exception of the pianos, are individually owned, and in most cases brought to Shanghai by the owners.

A few colleges have bands, and there is some demand for instruments from various military organizations.

There is a good demand for sheet music in Hongkong, and dealers report improvement in this line during the last few years.

It is estimated that 90 per cent represented dance music and popular songs and the remainder classical, semi-classical and band music.

Imports from the United States have consisted chiefly of dance music and popular songs, while most of the classical music was obtained from continental Europe.

Dig Dinosaur's Bones From Rock in Museum

Washington.—Charles W. Gilmore, curator of vertebrate paleontology at the Smithsonian institution, has begun excavating from solid rock the skeleton of an enormous dinosaur which he presented to the institution last autumn. More than five years will be required, Mr. Gilmore estimates, to place the skeleton in such condition that it will be ready for exhibition in the national museum.

The skeleton, which is the largest specimen ever brought to the Smithsonian, measures 80 feet in length and 14 feet in height. To bring the bones to Washington from their original resting ground in the dinosaur national reservation, near Jensen, Utah, required the exertions of a large number of men. The bones and rock in which they are imbedded weigh 50,000 pounds. At one stage of the journey, the excavators were forced to transport them 150 miles by automobile.

Three men, working eight hours a day for four months, Mr. Gilmore said, will only be able to disinter three of the dorsal vertebrae of the reptile. Some sections are already being arranged by workmen, but 34 packing cases containing more than 50 vertebrae are still lying unopened in the basement of the museum.

Norman H. Boss, preparator in fossil vertebrates, is assisting Mr. Gilmore to reconstruct the skeleton.

Famous Stone of the Czars Out of "Hock"

Nice, France.—The famous 43-carat sapphire-blue diamond once belonging to Emperor Nicholas of Russia, has been taken out of the municipal pawnshop here, where it has been held for three years as security for a loan of 200,000 francs borrowed by Mile. Suzanne Thuillier, to whom Nicholas is said to have given it.

Mile. Thuillier came to France from Russia with nothing but the stone and once she had pawned it she was unable to get it out because creditors with claims aggregating 2,000,000 francs thought the diamond was safer in the pawnshop.

Finally a Nice jeweler financed Mile. Thuillier and she took out the stone, for which she is said to have just refused 10,000,000 francs. The stone is declared by jewelers to have come from a Buddha in a Hindu temple a thousand years ago.

Great Flagons of Milk Quench America's Thirst

Washington.—Americans are consuming more milk than ever before, the Department of Agriculture has announced, saying that the household consumption of milk was 212 quarts per person last year, compared with 200 quarts in 1922. Consumption of butter was 17 pounds per capita, compared with 16½; of cheese, 8.91 pounds, compared with 3.74; of condensed and evaporated milk, 13.25 pounds, compared with 12.63, and of ice cream, 2.66 gallons, compared with 2.43 gallons.

Milk production was 7,000,000,000 pounds more last year than in 1922, the total output having been 109,736,002,000 pounds.

Good For Weak Eyes

The quick action of simple camphor, hydrastis, witchhazel, etc., as mixed in Lavoptik eye wash astonishes people. One small bottle helps any case weak, sore or strained eyes. Aluminum eye cup free. A. M. Lewis, Druggist.

Life's Rewards.

Life's rewards seem pretty good to most men until they begin comparing.

BOBENMOYER FOR SHERIFF

I do hereby announce that I am a candidate for nomination on the Republican ticket for Sheriff of Crawford County. I have lived in Grayling eleven years and in Maple Forest two years, on the Ben Sherman farm, and if nominated and elected, I shall do the duties of a sheriff as they should be done.

JESS BOBENMOYER.
Primary Election, September 9, 1924.

CODY FOR SHERIFF

Because of the urging of many of my friends that I become a candidate for the office of sheriff this term, I have decided to do so.

I respectfully refer the public to my record as sheriff during the years of 1915 to 1919. Many of our citizens claim that I was the best sheriff Crawford county ever had, and there is absolutely no reason why I cannot do just as well again. And furthermore I always kept the Court house and the Court yard in good, clean condition. And, in spite of the fact that the lawn was considerably shaded, I always kept the grass green and nicely mowed. At that time people took pride in the good appearance of their court yard. I respectfully invite our citizens to make comparisons of these conditions as they were then and as they have been under other management.

If the people desire good service in the sheriff's office, I promise that THEY WILL GET IT IF I AM ELECTED.

WILLIAM H. CODY.
Primary Election, September 9, 1924.

FREDERIC ITEMS.

George Thomson and wife are enjoying a visit from his sister from Ontario.

The Ladies' Aid will meet at Mrs. Doremire's this week.

The Bible class is temporarily suspended during the summer months.

Merle Patterson is spending her vacation in Detroit.

Rev. Berkley of the First Methodist Protestant church of Detroit is visiting at the home of Rev. Fred Hart, and enjoying fishing while here.

Mrs. Laura Wallace is in Bay City for a vacation.

Mr. and Mrs. Wixom enjoyed an outing at Deward club house.

Rev. Hart and Mr. Monroe were East Jordan callers Friday.

J. J. Higgins is out again after a few days illness.

Everybody is happy over the huckleberry crop this year.

Louis Gardner and son Louis Jr. went to Detroit Sunday night. They were accompanied as far as Flint by Miss Erma Craven.

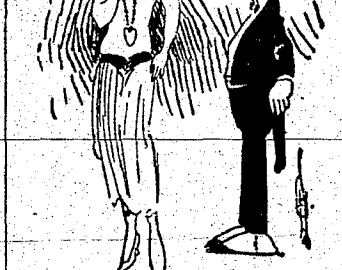

Louis Gardner, Jr. is champion fisherman around here, landing a five pound Mackinaw trout recently.

Mrs. W. T. Rowell of Bay City is taking care of her mother, Mrs. Ed. McCracken, who fell and had the misfortune to break her arm.

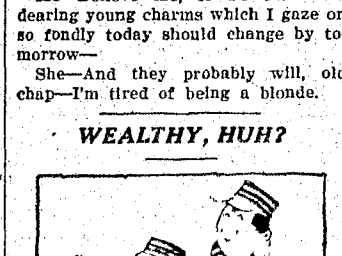

The Armstrong family sure can pick berries. 88 quarts was their measure for Monday.

Mr. Leggett, our section boss, was elected as one of the members of the school board last week.

EASING THE SHOCK

WEALTHY, HUH?

CHAUTAUQUA AUGUST 7-8-9

Grayling Post No. 106 American Legion will present the De Luxe Travers-Newton Chautauqua circuit, August 7th, 8th and 9th. This is an effort to bring before the people of Grayling something of the better class of entertainment. This chautauqua company has been chosen because their program for this year will in every feature provide educational value as well as amusement. There will be two programs a day so that everyone can attend. The price has been made extremely low as the Legion desire everyone to receive the benefit of it. The six entertainments will include music, lectures, entertainers and a big feature, two well known plays which will be presented by two popular stock companies. The price will be for adults, \$2.00; for children, \$1.00. Watch for the program in next week's issue of the Avalanche, and you will be eager to secure your ticket.

BASE BALL

SUNDAY AND MONDAY
JULY 27 AND 28

Two games of base ball are scheduled for next week, the first on Sunday and the other on Monday, July 27 and 28. The Sunday game will be with the Johannesburg team. This team is made up of an aggregation of players from the M. A. C. that are spending the summer at the State Forestry in Otsego county. They are a fast team and have defeated such teams as Atlanta, Alpena, Hillman and Onaway.

The Monday game will be with the Chicago Giants, a colored team of star players. This promises to be an exceptionally fast game.

Grayling is working hard to get in trim to meet these teams, and Manager B. E. Smith says he hopes to win both games.

Let's have a good attendance at both games, and everyone root for the home players.

Admission 50c and 25c. Sunday game at 2:30; Monday game at 3:00.

GRAYLING MAN'S LUCKY FIND.

Will Interest Readers of Avalanche.

Those having the misfortune to suffer from backache, urinary disorders, rheumatic pains, or other kidney and bladder disorders, will read with gratification this encouraging statement by a Grayling man.

Geo. A. Collen, Prop., restaurant, Spruce St., says: "My back ached terribly through the small part and was sore. The kidney secretions were too frequent in action and highly colored, but a box of Doan's Pills, which I got at Lewis' Drug store proved sufficient to cure the complaint."

Mr. Collen gave the above statement October 11, 1916 and on April 23, 1920 he added: "Doan's Pills fixed me up in good shape and the cure has lasted. I am glad to again recommend Doan's."

"Price 60 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Collen had. Foster-Milburn Co., Mfrs., Buffalo, N. Y."

THURSDAY, JULY 24, 1934

C. J. Lynch of Flint was a business caller in Grayling Friday.

Mrs. Edward King returned to her home in Flint Saturday afternoon.

It is impossible to keep a stiff upper lip if you have a limber backbone.

Nothing makes an uplifter so mad as to have somebody try to uplifter him.

You have a right to do a lot of things that you have no business doing.

"Girls will be girls" in spite of the fact that a lot of them are trying to be boys.

Ross N. Martin of Wolverine is in the city for a few days calling on friends.

Mr. and Mrs. R. H. Gillett left Sunday for Bay City to drive back their car that has been there for repairs.

Mr. and Mrs. Phil Moran motored to Midland Friday. They expect to be gone a week.

Mr. and Mrs. Ernest Larsen are moving into the former Roblin home on Ottawa street.

A rich man can afford to dress poorly and a poor man can't afford to dress richly.

It probably would be fine to be your own boss, but do you know, anybody that is?

Ray S. Foster of Detroit was the guest of Miss Anna Peterson over the week end.

Dr. and Mrs. J. J. Love of Detroit, visited old friends in Grayling a few days last week.

You may be "all things to all men" but somewhere is a woman who can see through you.

Nels Corwin was in Lansing Thursday, returning with a new Star coupe for his son Menno.

Raymond E. Papendick of Detroit arrived last week for a two weeks visit with his wife and children.

Mrs. Burrows, mother of Arnold Burrows arrived last Thursday from Lansing to remain for a number of weeks visiting her son and family.

W. W. Lewis spent Sunday in Lansing attending a family reunion.

The man who likes to drive his car a mile a minute doesn't drive it that fast going to his job.

Misses Bertha and Arline Pollack of Detroit are visiting their grandmother, Mrs. A. Kraus.

It has become impossible to find a Police Gazette since women began monopolizing the barber shops.

Victor Smith and family are moving from Cedar street into the Bunting house on McClellan avenue.

Mr. and Mrs. Clifford Whyte of Bay City are guests at the home of the latter's brother E. A. Mason.

Roy Brown of Bay City visited at his home here over Sunday and had as his guest Howard Ayotte.

Miss Janet Matson of Flint is visiting her parents, Mr. and Mrs. Elnor Matson for a couple of weeks.

Andrew Brown and family are enjoying a visit from Mrs. John Brown of Manistee, the wife of their son, John.

Mrs. Joseph Corrigan returned Monday to her home in Detroit, accompanied by her sister, Miss Leola Cameron.

Mrs. Holger C. Schmidt entertained a few ladies Tuesday afternoon at her home in honor of Mrs. Harry Robinson of Detroit.

Andrew Larson and family of Johannesburg were guests at the Hans Petersen cottage at Lake Margrethe, Sunday, motoring here.

Mr. and Mrs. Wilson Barnes of Flint motored to Grayling and spent a few days visiting the latter's mother, Mrs. David White.

Guests at the home of James Armstrong this week are Mr. and Mrs. Calvin Church of Centerline, and Miss Marjorie Woods of Bay City.

Who said Tooth Brush Holders? We have them in nickel-plated ware that will hold six brushes. Each place is numbered. Sorenson Bros.

Wanted to rent: Furnished cottage during encampment in August. Must be near Reservation. Phone Royal Burrows 1828W, or write Lieut. Colonel David E. Cleary, Clawson Michigan.

7-24-2

We have several good bargains in house paints. See us before buying. Sorenson Brothers.

Mr. and Mrs. Will Woodburn of Maple Forest are entertaining the former's two sisters, Misses Myrtle and Maud Woodburn of Fenton, Mich.

Miss Margaret Hemmingsen visited over the week end with Miss Barbara Bellowas at Frankfort. Miss Bellowas was principal of our high school last year.

Mr. and Mrs. A. E. Michelson and children, Jeanne and John have opened their cottage at Lake Margrethe expecting to remain for the rest of the summer.

Mrs. J. K. Hanson, accompanied by Mrs. C. C. Wescott, has returned from Ewen, where they were the guests of Mrs. Hanson's sister, Mrs. Louis Jensen.

Major and Mrs. Tower and two daughters of Lansing have arrived and will spend the month of August at the Military club house, Lake Margrethe.

Born to Mr. and Mrs. Morris Gorman Wednesday an eight pound son, who has been named Clayton Morris. Mrs. Gorman was formerly Miss Johanna Jensen.

Harry Ward and family and L. D. Sherman of Detroit are enjoying a vacation in Grayling. Mrs. Ward is visiting her mother Mrs. George Owens while here.

Mrs. Holger Hanson entertained a few ladies at dinner Friday evening to honor Mrs. J. J. Love of Detroit, who was the guest of Grayling friends for a few days.

Mrs. Gilbert LaLonde and son Gilbert and Miss Genevieve Sauve of Bay City are visitors at the home of their sister Mrs. Alfred Bebb of Du Pont avenue for the week.

Miss Angela Amborski accompanied Miss Margaret Curtis to Cadillac, Monday. The latter, who taught in Grayling schools last term, had been her guest over Sunday.

Mr. and Mrs. William Pobur and daughters of Detroit are enjoying their annual summer outing at Lake Margrethe, guests of Mrs. Pobur's parents, Mr. and Mrs. Hans Petersen.

Dr. and Mrs. H. H. Pool have as their guests the former's parents, Mr. and Mrs. David A. Pool of Urbana, Ohio. They will probably be here for the remainder of the summer.

Dr. and Mrs. C. A. Canfield accompanied the latter's sister, Mrs. Duane Fox and little daughter, Grace Elizabeth to Gladwin Friday, to visit the ladies' parents, Mr. and Mrs. J. M. Miller.

Complimenting her sister Mrs. Hugh Kelley of Grand Rapids, Mrs. Louis Kessler entertained several ladies yesterday afternoon at her home. It was a delightful afternoon. The hostess served her guests with a dainty lunch.

Mr. and Mrs. Jap Smith are moving into their home on Chestnut street. The residence was formerly occupied by Mr. and Mrs. Harry Simpson, who have taken up their abode with the former's mother, Mrs. Saloma Simpson, until they find a suitable place.

Several ladies and gentlemen were guests of Mr. and Mrs. George Burke at their summer home at Lake Margrethe last Sunday at a picnic. It was a lovely day for such an affair and everyone present enjoyed it very much. The picnic dinner made everyone feel in good spirits.

Mrs. Louis W. Ostrander, daughter Miss Irma and son Glen of Alma, arrived by motor Thursday and are visiting at the homes of Mrs. Perry Ostrander, Charles Waldman and Frank and Earl Whipple. Mrs. Earl Whipple and daughters, who had been visiting in Alma returned with them.

Mr. and Mrs. John Ropanski of Bay City stopped over last Wednesday with Mr. and Mrs. Chas. Blair. They had been visiting friends at the Soo and in Canada for a few days. They report the roads from the Soo to Grayling to be in good condition and for traveling by motor that they cannot be beat for gravel roads.

Mr. and Mrs. E. E. Burget and family of Marlette spent Sunday at the home of Louis Mead. Mrs. Burget is a sister of Mr. Mead. Lou says that his modest little home was hardly big enough for so much company but that he got away with it pretty well considering. But there is one place where he can't get stuck and that is in putting up a good meal.

The Ladies National League and the National League of Veterans and Sons were very royally entertained last Sunday at the McMaster club house on the main stream of the AuSable river. The gentlemen enjoyed fishing during the forenoon. A splendid servel self lunch was prepared by the ladies and sixty-five plates were filled. The afternoon was spent in games and readings, which were enjoyed by all. All left for home voting Mrs. Martha McMasters a splendid hostess, and looking forward for the next time.

Lewis M. Edwards, a former employee of the Avalanche office, arrived in Grayling this afternoon, from Bangor, where he is now working. He is driving his own Star coupe and says he is getting along fine. He likes Bangor, which is a fine little city in the peach belt, near St. Joseph. Lou says he would rather spend his vacation in Grayling than anywhere where he knows of, and is here to enjoy a few days with his many friends. He will find many who are really glad to see him again. He will return home next Monday.

Twelve Boy Scouts and their scoutmaster left early Monday morning for camp. Their enthusiasm was high as they piled into the truck that carried them to their destination, although they showed their training by perfect order and attention to their duties. They will spend a week at Lake Guthrie, five and a half miles west of Waters. The troop includes the following boys: Eric Rosenstand, Edwin Morfit, Clarence Morfit, Duard Willet, Gerald Willet, Gedney Penton, John Custer, Russell Peterson, Gordon Green, Kenneth Clise, Willard Johnson, Bruce McConnell and Mark Lewis. West Brown of Saginaw accompanied the troop and will assist Scoutmaster Richards.

Miss Kathryn Brown returned from Shepherd, Sunday.

Emil Giegling spent the week end in Manistee, his home town.

The Post Office looks fine with a fresh coat of paint on the inside.

Mrs. Newton Reagan and sons of Bay City are visiting relatives in Grayling.

Walter Johnson of Roscommon visited A. E. Hendrickson and family over Sunday.

Miss Fern Armstrong returned the last of the week from a couple of weeks vacation in Detroit.

Frank Tetu and family were in West Branch, Tuesday, driving back a new Essex for a customer.

Mr. and Mrs. George Flagg of Detroit have been spending a few days visiting Louis Johnson and family.

Miss Bessie Brown is enjoying a couple of weeks vacation visiting her sister, Mrs. Bert Scholz in Saginaw.

Mrs. Dan Hoessl has returned from a week's visit with her daughter Mrs. Owen Cameron at Honor, Mich.

Miss Mary Watts of Detroit is a guest of Miss Jennie Ingley at Rustle Inn, Lake Margrethe for the balance of the summer.

Marguerite Bursch little daughter of Mr. and Mrs. Phil Bursch of Gaylord had her tonsils removed at Mercy hospital this week.

Mrs. George Robinson and sons Richard and William of South Bend are guests of Mr. and Mrs. Herbert Wolf at Lake Margrethe.

Mr. and Mrs. Peter E. Johnson and family of Grand Rapids are in the city owing to the death of Mrs. Johnson's father, A. C. Wilcox.

Mr. and Mrs. H. S. McCullough of Bay City are the guests of their nephew, Dr. C. A. Canfield at the Canfield cottage at Lake Margrethe.

Mr. and Mrs. N. P. Jorgenson of Noble, Illinois, are visiting their daughter, Miss Kerry Jorgenson and sons Walmer and Adler in this city.

Mr. and Mrs. Spencer Mielstrup and little son Spencer, Jr. drove to Grayling from Detroit Wednesday and are guests of Mrs. Mielstrup's mother, Mrs. Victor Salling.

Dr. H. H. Pool and Roman Lietz are enjoying a canoe trip down the AuSable. Mr. Lietz is a veteran at this sport and no doubt is giving the Doctor some pointers on how to catch the elusive trout at will.

To reduce our stock of Alabastine the best known cold water wall coating in the country, we are throwing eight of the best shades on the bargain counter at almost half price, this week at 35 cents per package. Sorenson Brothers.

Alexander C. Wilcox died at his home near the Fish Hatchery Wednesday afternoon at 1:00 o'clock. Mr. Wilcox was 86 years old and a veteran of the Civil war. The funeral will be held Saturday afternoon. Further particulars will be published in next week's issue of the Avalanche.

George Sorenson is a candidate for re-election to the Judge of Probate of Crawford county. He has been one of the best judges this court has ever had. He should be elected again. Very few people have matters that pass thru the probate court but those who have recently, fully appreciate the prompt and capable way their probate affairs are handled by Mr. Sorenson.

Honoring Mrs. Harry Robinson of Detroit, who is a guest in the Landsberg home, Mrs. Ben Landsberg entertained two tables of "500" Saturday afternoon. It was Mrs. Robinson's birthday and the affair was a complete surprise to her. Mrs. H. C. Schmidt held the highest score, Mrs. Clarence Brown winning the consolation prize. Mrs. Robinson was awarded the guest prize.

Mrs. Herbert Wolff and Miss Margorie Wolff entertained at tea Wednesday afternoon from four until six o'clock, to meet Mrs. George A. Robinson and Mrs. Herbert S. Wolff. The hostesses were assisted by Mrs. Marjorie Hanson, Mrs. Esbern Hanson and Mrs. Robert McKay, with Mrs. Oscar Hanson, presiding at the tea urn. The dining room was lovely in white and green, white snapdragons and carnations being used in abundance. About forty ladies were received during the afternoon.

Mr. and Mrs. John Q. Roberts of Maple Forest are entertaining Mr. and Mrs. George VanAlstyne, and Mr. John Eisenhart of Detroit.

The exterior of the Conine Grocery and the Burrows meat market, both buildings owned by R. D. Conine are being nicely re-painted, improving their appearance very much.

The annual "500" party given by the Good Fellowship club, will be given on Wednesday, July 30th, at the Officers' Club house, at Lake Margrethe. All ladies are most cordially invited to attend. Autos will be at the Daneshod hall at 2:00 o'clock. Anyone wishing a machine to call for them, may notify Mrs. Lorane Sparkes or Mrs. George Alexander. Every effort will be made to give the ladies a pleasant afternoon, and a large attendance is desired. In as much as the charity fund of the Club is raised at this time, 50 cents will be charged.

Word has been received of the death of Mrs. Henry Jordan, that occurred Sunday night at the home of relatives in Bay City, after a long and severe illness. Mrs. Jordan was a patient at Grayling Mercy hospital for several weeks, submitting to a serious operation at that time, when deeper ailments were found and she was advised to go to Ann Arbor to consult specialists. At Ann Arbor nothing could be done, and the patient was removed to Bay City, where death took place. Besides her husband, who is employed as a section foreman for the M. C. R. R. at this place two daughters survive, Lillian and Evelyn. The funeral was held in Bay City Wednesday.

21 Years of Service

In the 21 years since its founding, on June 16th, 1903, the Ford Motor Company has contributed largely to the motorizing of modern life. Ten million Ford cars have quickened the pace of business, have brought convenience to day-by-day travel and healthful enjoyment to the American family. Economical manufacture on a large scale makes personal transportation available to all.

THE UNIVERSAL CAR

FARM BUREAU NOTES R. D. BAILEY County Agricultural Agent

Congratulations.

Elmview Farm, the beautiful home of Mr. and Mrs. Wm. G. Feldhauser, in Maple Forest Township, rejoices in the arrival by express from central Michigan of a choice young purebred Holstein bull calf. This young fellow is from parentage that delivers the goods, that run into high production. That is the only kind to buy, or to have anything to do with—those that come from high-producing ancestry.

Mr. and Mrs. Feldhauser are to be praised for the courage that led them to invest in an animal of really good quality in these hard times. By looking far ahead and steadily holding to high ideals, even though others talk wise and ridicule, is the right way to improve the stock on our Crawford County farms.

One more high class bull added to the resources of our good County! If we keep this up a little longer we

are going to be able to show the world some real dairying, and that's the thing, and the only thing, that will bring real solid prosperity to Crawford County farmers.

We Hear.

We hear that Hugo Schrieber, Jr. of "The Evergreens" in South Branch

Township, and Mr. Feldhauser had fixed up a deal between themselves to get young bull calves of about equal merit, in order that they may be traded in due time, when it becomes necessary to change bulls. This is a good plan. We now have choice registered bulls available to nearly all farmers. We need just a few more.

Bargain for Some One.
I know where there is a choice young purebred Holstein bull calf in this County from the best bull ever

in the County and an unregistered purebred dam. This young fellow can never be registered; but, as a starter for a beginner, and for practical purposes, he is as good as a purebred. He was born July 10 or 11, and can be had for ten dollars if taken AT ONCE, for the owner is not going to feed it fifteen dollars worth of milk, then sell this beautiful animal for ten dollars.

Who has the spunk and the enterprise to take him this week? You can take him home in your auto.

State Farm Pleases.

Last Saturday the County Agent had the pleasure of showing twenty-two five delegates of the North-Eastern Michigan Development Bureau over the State Experimental Farm. All seemed well pleased with the appearance of things and with what had been accomplished on a piece of poor sandy land.

The large block of alfalfa took their eye. We feel rather proud of it ourselves. The soil there used to be low sand. Starting to fill the soil with humus (decaying vegetable matter) in the fall of 1921, we took from that six and a quarter acres, at the first cutting in 1923, almost ten thousand pounds of alfalfa hay, cured ready for the barn.

Each load was weighed on the Sal-

ling Hanson Co. scales, and the land measured with a steel tape. The visiting delegates were well pleased with the three and one-third acres of alfalfa, just south of the rye, growing clean and thrifty right where, in 1922 it was a tangle of dewberry bushes. Anyone can do it if they want to hard enough.

It's a mystery to me, too deep for my understanding, why farmers muddle along with other grasses, when alfalfa would do them so much better service. You cut it twice a year. It lasts a good many years. Its actual feeding value is away ahead of timothy or clover, for their feeding value runs like these figures:

Timothy, 3.
Clover, 7.
Alfalfa, 11.

Alfalfa stands drouth far better than clover, on account of the deeper root-system. Having recently had rains, and probably being in the midst of a rainy period a farmer would do well to sow alfalfa yet this month. Only such seed should be used as will produce plants that can stand our winters. These are the Cossack, Grimm, and Ontario Varieties.

Too many people when they seed to alfalfa, try to cut across the corners, and play smart, and do things that are against the best experience of the times.

They refuse to inoculate seed with a 25 cent bottle of culture; or they buy cheap seed, unadapted to this climate; or will not properly fertilize the soil.

Where Is He?

The County Agent begs the indulgence and patience of his farmer friends who may be wondering where he is, and why he does not call more often.

I dislike to play the baby act; but, I was taken very sick, about the middle of May and was in the hospital between three and four weeks. Am sick yet, and under the doctor's care. To be laid up this way annoys me more than it does you, for I had big plans for a big summer's work. I can attend to my office work and many bring farm problems there to be settled. When I disobey the doctor's orders and take a trip into the country I suffer a set-back. I am trying to get well as fast as I can, and when I do, we will make the fur fly.

However I might add, that, in the first half of May, before going to the Grayling Hospital, I secured for our farmer's ninety lots of the very highest class seed, valued at \$755, without profit to myself. I also, in the same time, delivered 3700 pounds of Sodafol, (government explosive equal to dynamite) and thus saved farmers \$740.

Bring 'Em On.

Bring on your agricultural problems and we will settle them in the light of modern experiments.

One man drove last Saturday from the western side of Higgins Lake to settle a problem about clover seeding. Another recently wrote from Michelson. It's a dull day when six or eight do not call up by telephone, or write, or call at the office, or meet me on the street with a problem concerning pests on fruit or garden, field or stock.

Agriculture is a big subject, and those who pursue it fortified with the findings of modern research are the only ones who are going to get very far, or get much out of life on the farm.

FIND UNKNOWN RIVER IN NORTHERN ALASKA

Interesting Letter Tells Life in Far North.

Washington, D. C.—The story of an explorer's life in the northern Alaskan wilderness and the discovery of uncharted streams is contained in a letter brought back to civilization by an Eskimo from the geological survey party headed by Dr. Philip S. Smith and made public by the Interior Department. The expedition is exploring naval petroleum reserve No. 4.

In exploring the Colville river, the letter, written March 30, states that Doctor Smith found a river about 200 yards wide, which flows westward and then turns northward. The party plans to continue the river exploration, but they must reach the coast in time to catch the last ship out of the Arctic ocean before the September freeze.

Find Grove of Willows.

The party has established a base camp at the head of the Unalakleet river about ten miles from the divide between the Unalakleet and Colville rivers, at latitude 67°45'30", at an altitude of 2200 feet. On this divide the party has discovered groves of willow trees as large as a man's wrist, which they are using for fuel.

The letter explained that the supporting party of seven men and 120 dogs turned back on March 16, and the main expedition was proceeding with three sleds and thirty-three dogs. The sleds soon will be abandoned, and the journey continued in canoes on the Colville river.

The letter, which was written by Dr. J. B. Mertie, Jr., gives the following description:

"During the summer, I have been engaged chiefly in making astronomical observations with the transit. I have seven good observations on latitude and azimuth, which check one another very well.

Able Find the Time.
"Having my azimuth, I also have local time from transits of the sun. And what with watches, and their known ratings, we are in a position to make a fair computation of longitude. I am also able to rate our watches from successive transits of the sun, day after day at this camp.

"Such diversion keeps me very busy, and the days pass very quickly. Once in a while, say once a day, when it gets too cold sitting in the tent, I warm up by cutting wood for a half hour or an hour. All of us are well. None of us have been seriously frost-bitten yet, and I think the most severe weather of the winter is past now. So, all in all, everything is going fine, and the success of the expedition seems assured. Just tell that to the doubters."

FARMING TO BE ON SCIENTIFIC BASIS

Writer Sees Agriculture Becoming Centralized.

After studying the existing facts carefully and seriously, I can imagine the future unfolding in somewhat the following fashion:

With the progress of science and a more thorough diffusion of knowledge than there has been in the past, the development of agriculture should compare favorably with that of mechanical industry. Though the odds are against revolutionary discoveries, there will be a marked advance in agriculture as an art; and in a country having a considerable density of population this will require a real metamorphosis in agriculture as a business.

As the complexity of the situation increases, thus demanding more and more in the way of capital and knowledge, both the little farmer and the inefficient farmer will be forced to the wall. There will be a survival of the fittest.

Paralleling the tendency of the last 20 years in manufacturing there will be a trend toward larger units. Successful farming will require competent managers and highly paid specialists, and these can be retained only where there is a relatively large production.

To what lengths centralization will go, no one can say. The limit will surely be different in the various branches of husbandry. It is not likely, for example, that individual control can become as extensive in growing fresh vegetables for immediate consumption as in raising wheat and corn. But it seems quite probable that ultimately there will be agricultural undertakings comparable in size and scope to the United States Steel corporation. They will build up voluntarily because of the advantages offered.

There will be large farms growing as few crops as the exigencies of scientific farming permit, managed by business executives of high caliber and superintended by men adequately trained in the natural sciences and in farm practice. These farms will be firmly united into mutual-benefit associations having a single directive policy.

Planting will be controlled and over-production prevented. Standardized products will be sold, and sold throughout the year in quantities just meeting the current market demands, thus eliminating outside speculation. Margins now eaten up by middlemen, both from small quantity buying and from lack of economy in selling, will go to swell the annual balance of the growers themselves.

In brief the methods which have made the American manufacturer successful will make the American farmer successful.—E. M. East in Scribner's Magazine.

To Observe Sun Spots

A very small telescope, or even an ordinary field glass or opera glass, will afford the reader a view of sun spots at a time of solar activity. The safest way to observe them is to point the instrument at the sun and focus the eyepiece until a sharp image of its disk, several inches in diameter, is projected on a surface of smooth white cardboard held at a distance of from two to four feet. The spots can easily be distinguished from specks on the eyepiece by noting that they move with the sun's image. At present we are just emerging from a period of solar calm during which no spots have been seen for weeks at a time. But a new cycle of activity has already begun, and a few spots are beginning to appear. The reader hardly needs to be warned that if he wishes to look directly with his telescope, field glass or opera glass he must protect his eyes with the blackest of smoked glass, as the intensely bright image would otherwise seriously injure them.—By George Ellery Hale in Scribner's.

Cluck! Cluck!

A tourist was driving her motor car along a narrow road in Maine, when she noticed a farmer with a yoke of oxen attached to a wagon approaching.

"Thinking that the team might turn off at a side and which she was near she stopped the car where the road was widest and waited. Three or four hens gathered around and one sat down in front of the machine.

When the farmer drew near he aimed a toothless grin at the fair driver and a handful of dirt at the hen, saying: "I'll roost her out for ye. These damned hens be always agittin' in the way."

Gold in Australasia

A rich gold reef was recently discovered near Ardlerhan, New South Wales, samples from which assayed 15 ounces gold to the ton. Another vein was found near the old Bodangora mines on property previously worked. The width of the new vein is about two feet, and an assay taken from it showed free gold ranges from 1 ounce 13 pennyweight to 2 ounces 7 pennyweight per ton.

Huge New X-Ray

To reduce the cost of treatment and increase its effectiveness, an X-ray tube has been invented which is said to radiate rays at six times as many curative rays as ordinary tubes. Thus the time of exposure is cut down. Another process is being perfected to extend the use of the X-rays to internal cancer.

Artificial Lighting.

It has been computed that there are four times as many artificial lighting hours in winter as in summer. One and a half hours cover the use of light in the average residence in June. While six and a half hours is the average time for December.

8: Them a Mile.

Distals of the four clocks of the clock tower on 7-8 hours of parliament, London are 23 feet in diameter.

"Scribes" Used to Be Fighters.

A scribe was a name used among the Jews originally to indicate a military officer, but later the cognomen was given to those who copied the books of the law.

PROBATE NOTICE.

STATE OF MICHIGAN,
The Probate Court for the County of Crawford.

At a session of said court, held at the probate office, in the Village of Grayling, in said county, on the twenty-third day of July A. D. 1924.

Present: Hon. George Sorenson, Judge of Probate.

In the matter of the Estate of James W. Gurney, deceased.
Elizabeth Lamont having filed in said court her petition praying that said court adjudicate and determine who were at the time of his death the legal heirs of said deceased and entitled to inherit the real estate of which said deceased died seized, said Real Estate situated and lying in the first Concession of the Township of Sandwich—west—in the County of Essex and Province of Ontario.

It is ordered, that the eighteenth day of August A. D. 1924, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition. It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Crawford Avalanche, a newspaper printed and circulated in said county.

George Sorenson,
Judge of Probate.

MORTGAGE SALE.

Whereas default has been made in the payment of the money secured by a mortgage dated the 27th day of November, 1915, by Lafayette B. Merrill and Sarah Merrill, husband and wife, which said mortgage was recorded in the office of the Register of Deeds of the county of Crawford, in Liber I of Mortgages on pages 161, 162 and 163 on the 30th day of November, 1915, at 3 o'clock in the afternoon.

And Whereas the amount claimed to be due on said mortgage at the date of this notice is the sum of \$1209.98 in principal, interest and taxes, and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now, Therefore, notice is hereby given that by virtue of the said power of sale and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises there-in described at public auction to the highest bidder at the front door of the court house in the Village of Grayling in said county of Crawford on the 29th day of September next at 1 o'clock in the afternoon of that day; which said premises are described in said mortgage as follows, to-wit: West Half of the Northwest quarter of section 21, Town 25 North of Range 3 West, Crawford County, Michigan.

Dated June 27, 1924.

Firestone

LEADERSHIP

Firestone Leads on Speedway with Five Record Breakers

When the race driver selects his tires he does so realizing that his life and chances for success depend upon them. It is significant that all of the ten money winners in the Indianapolis race were Firestone shod. Firestone, using gum-dipping and other special processes, has developed tires to such a high degree of efficiency that at Indianapolis, May 30th, the following drivers broke the world's record for 500 miles over this brick track making many rounds at over 100 miles per hour.

Never before were tires put to such grueling service, where it was necessary for every ounce of rubber and every fibre of fabric to work in perfect unison with every other part.

Driver	Time	Miles per hour
Joe Boyer—L. L. Corum	5:09:28.11	94.4
Earl Cooper	5:09:47.11	94.4
Timmy Murphy	5:09:48.24	94.4
Harry Hartz	5:10:44.29	94.4
Bennett Hill	5:11:07.50	94.4

Leadership in Everyday Service

Millions of motorists are profiting by the lengthened service of Firestone tires. Scores of unqualified testimonials emphasize the long mileage Firestone Gum-Dipped Cords deliver—which builds leadership in service, safety and economy.

Leadership on Cabs, Buses and Trucks

The largest taxicab companies in the five largest cities in the United States use Firestone Gum-Dipped Cords exclusively. One fleet alone, the Yellow Cab Co. of Chicago, uses over one-half million tire miles per day.
